

Enterprise authentication that delivers data integrity and security, allowing highly regulated industries to achieve compliance and productivity.

We work with Top 100 Pharmaceutical and Medical device companies to keep their manufacturing lines and labs productive and compliant.

Solve Today's Authentication Issues

Current Tools are outdated

Authorization tools that leave the body. Pins, smart cards, soft tokens

Pharma Challenges

- Weak and forgotten passwords and PINs
- Shared smart cards, key fobs, passwords
- Authenticity of physical signatures

Business Risks

- Poor data integrity
- Compliance concerns
- Productivity loss

2 Factor Authentication

reliable e-signatures
for
21 CFR part 11
ALCOA+

Nymi Enterprise Edition built for Productivity

Three components

- Nymi Band
- Nymi SDK
- Nymi Enterprise Server

Productivity with the Assurance of Compliance

Traditional login and password

VS

Nymi Band Tap

Issues We Solved

Regulatory requirements from FDA / ALCOA+ (21CFRpart11)

Non-repudiation (an authentication that can be said to be genuine with high confidence)

Efficiency. Tens to hundreds of e-signatures provided in application such as MES can take up to an hour of an operator's time
